

UNITED STATES NUCLEAR REGULATORY COMMISSIONSOUTHERN CALIFORNIA EDISON COMPANYSAN DIEGO GAS AND ELECTRIC COMPANYDOCKET NO. 50-206NOTICE OF ISSUANCE OF AMENDMENT TO FACILITY OPERATING LICENSE

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 109 to Provisional Operating License No. DPR-13, issued to Southern California Edison Company, et al. (the licensee), which revised the Technical Specifications for operation of the San Onofre Nuclear Generating Station, Unit 1, located in San Diego County, California. The amendment was effective as of the date of issuance.

The amendment revised the Control Room Emergency Air Treatment System surveillance requirements to (1) include testing with the newly-added duct heaters and (2) more closely follow the Standard Technical Specifications and current regulatory guidance for charcoal filter surveillance. The amendment also allows for suspension of pressurizer power-operated relief valve (PORV) block valve exercising during periods when the block valve is closed due to an inoperable PORV.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for Hearing in connection with this action was published in the FEDERAL REGISTER on July 8, 1988 (53 FR 25713). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of this amendment will not have a significant effect on the quality of the human environment.

For further details with respect to the action see (1) the application for amendment dated May 27, 1987, (2) Amendment No.109 to Provisional Operating License No. DPR-13, and (3) the Commission's related Safety Evaluation and Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW, Washington, D.C. and at the General Library, University of California, P.O. Box 19557, Irvine, California 92713. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Projects III, IV, V and Special Projects.

Dated at Rockville, Maryland this 26th day of September 1988.
