Director, Office of Nuclear Reactor Regulation
Attention: D. M. Crutchfield, Chief
Operating Reactors Branch No. 5
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket No. 50-206
NUREG-0612, Control of Heavy Loads at Nuclear Power Plants
Supplemental Information Report (SIR)
San Onofre Nuclear Generating Station
Unit 1

In resolution and clarification of the items discussed with members of your staff on August 30, 1982, ten copies of the subject report are submitted. The SIR addresses those items identified in the Draft Technical Evaluation Report submitted to us by letter dated August 3, 1982 and discussed during a conference call with members of your staff which require further information or additional actions on our part to enable the completion of your review. The SIR contains some commitments that will require changes to the San Onofre Unit 1 crane operating procedures which will be implemented by January 15, 1983.

If you have any questions on the information discussed above or the enclosed report, please let me know.

Very truly yours,

M. O. Medford for KPB
