**Attachments:** NRR-2012-005.pdf

Stacey & Bob,

Couple of things:

1) Doel Issues:

a. Carol Trip:

- i. Spoke with Mike Case and Carol Nove regarding her January 8<sup>th</sup> trip to support the FANC NDE Working Group. We are all on the fence with the trip. If you anticipate domestic inspection requirements or think it would be useful for her to attend for domestic issues, let me know so that I can ask Brian.
- ii. Please provide a short justification (few sentences) so that I can forward to Brian as the NRR request.

b. Chairman Doel Brief:

- i. Heard through the grapevine that you're briefing the Chairman tomorrow or Wednesday.
- ii. I was a bit surprised to find that out.
- iii. In the future, I would appreciate a heads up anytime you have or will discuss RES support of NRR especially to upper management or the commission. CIB staff are working extremely hard to support NRR and they should be recognized (Carol, Gary, and Mark) and its useful sometimes to expose senior staff to the NRC process to broaden them for bigger and better things.
- iv. Also, please do not speak for RES staff or contract dollar support to senior management or the commission. Travel and contractor funds are VERY, VERY limited. So, please do not promise what cannot be promised.

c. User Need:

(b)(5)

- ii. As a result, we will need an NRR User Need to continue the effort. Even if we get the user need, we cannot guarantee contractor support at this time as our funds are limited.

2) PTS NUREG Comments:

- a. Thanks for the PTS RG comments. Much appreciated. We're going through them now.
- b. When can we anticipate the PTS RG Technical Basis NUREG comments?

Thanks,  
Al
