Subject: Re: Belgium: FANC's Doel/Tihange restart requirements

Dear Brian -

Yes, thank you for letting me know, but I am aware of it as the FANC sent this note to us last Friday. They also sent us a more detailed 50-plus page assessment that they asked us to hold in confidence.

When you send your note to the Commission may I request that the parties cc-ed on this e-mail be cc-ed on your note. Should the Commission be interested in further details some combination of us would, I am sure, be happy to provide a briefing.

Thanks,

Mark

Subject: Belgium: FANC's Doel/Tihange restart requirements

Mark,
Saw this document today and wanted to make sure the relevant technical staff were aware of it. It outlines FANC's requirements and conditions for the licensee for restart of Doel 3 and Tihange 2, and was published February 1. I believe OIP will be sending it to the Commissioner assistants via OIP note.

Thanks,
Brian
