Subject: Application for License Amendment

License: 42-27593-01  
Docket: 030-34780  
Control: 581563

Ms. Cook,

In response to your request, the location identified in our amendment request is a building inside of an industrial park. This is not a permanent radiography location. It is only our Acuren office with a source storage vault located in the back area of the building. We have provided you with calculations for the source storage vault. We will also be using dosimetry (Landauer badges) to prove actual dose. In addition, we will use "area badges" on the walls of all occupied offices. This is not a residential quarter nor is it located near any residential areas. All radiography will be performed at temporary job sites throughout the state.
