Dear Mr. Ray:

SUBJECT: ISSUANCE OF AMENDMENT FOR THE SAN ONOFRE NUCLEAR GENERATING STATION,
UNIT NO. 1 (TAC NO. M83123)

The Commission has issued the enclosed Amendment No.150 to Facility Operating License No. DPR-13 for San Onofre Nuclear Generating Station, Unit No. 1. This amendment is in response to your application dated April 2, 1992.

This amendment modifies License No. DPR-13 to a possession only license (POL) to be effective upon the permanent cessation of operations at SONGS-1 and the receipt of a letter certifying that all fuel has been offloaded from the core and stored in the spent fuel pool.

Although the NRC must approve the decommissioning alternative and major structural changes to radioactive components of the facility, Southern California Edison Company may proceed with activities after the POL becomes effective (such as additional decontamination, component disassembly, and shipment and storage of spent fuel), if these activities: (1) are permitted by the POL and 10 CFR 50.59, and (2) do not materially and demonstrably affect the methods or options available for decommissioning or substantially increase the cost of decommissioning.

A copy of our safety evaluation is also enclosed. The notice of issuance will be included in the Commission's biweekly Federal Register Notice.

Sincerely,
Theodore A. Quay
