Subject: Protect everyone from radioactive waste

Sep 23, 2013

Allison McFarlane

Dear McFarlane,

No reactor should be licensed unless owners it proves it can safely store radioactive waste, and prevent overcrowded fuel pools.

Also, every EIS must measure the true costs of nuclear power -- including the total cost of subsidies and decommissioning.

Finally, the EIS should compare the total environmental footprint of nuclear (from mining to long term waste disposal) vs. renewables.

Sincerely,

Ned Flaherty
