Docket No. 50-206

OCT 23 1979

MEMORANDUM FOR: Dennis M. Crutchfield, Chief
 Systematic Evaluation Program Branch

FROM: Dennis L. Ziemann, Chief
 Operating Reactors Branch #2

SUBJECT: SAN ONOFRE SEP TOPIC V-II.A REQUIREMENTS FOR THE ISOLATION
 OF HIGH AND LOW PRESSURE SYSTEMS

By letter dated March 2, 1979, Southern California Edison commented on the draft evaluation provided SCE by our December 21, 1978 letter. SCE has requested that we provide for their review a detailed explanation of our conclusion that there is no low pressure injection system at San Onofre 1.

Please review the SCE comments and additions, and make appropriate revisions to this Topic. SCE has requested an opportunity to review and verify the correctness of our revised assessment incorporating these comments. Your revised assessment should be provided by 01/01/80.
