Washington, DC 20555-0001

**Re: State of North Dakota Specific License number 33-50924-01**

Mr. Rodriguez-Luccioni,

Weatherford will be moving 3 generally licensed densitometers in the State of Montana for use on temporary well sites from the State of North Dakota Specific License number 33-50924-01. We will move these devices from their current location to the next well on Monday November 18th, 2013 and will complete on Tuesday November 26th, 2013.

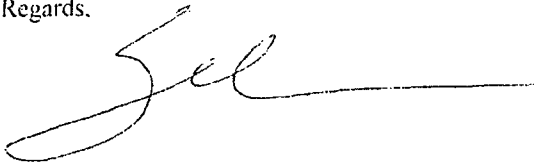

These 3 devices will be moved to the Continental Resources Tony-Joyce 1-24H  
Directions to the site are as follows (from Williston yard): Take Hwy 2 West through Williston to Hwy 85 south. Take Hwy 85 South to Hwy 200. Take Hwy 201 west to Fairview. Take Hwy 201 west of Fairview to CR 318. Take CR 318 South 1.5 miles to the location on the right.

GPS coordinates are: Latitude of 47.847523 and Longitude of, -104.83037, nearest town is Lambert, MT.

Device serial #	Model #	Source Ser. #	Activity	Isotope	Manufacturer
B8294	5190	CO-7754	200 mCi	Cs-137	Thermo Fisher
B8327	5190	CO-7780	200 mCi	Cs-137	Thermo Fisher
B7802	5192	CO-7650	200 mCi	Cs-137	Thermo Fisher

Please contact me on my cell number listed below with any questions or concerns.
