Gentlemen:

Subject: Docket No. 50-206  
ATWS Mitigation System Isolation Devices  
San Onofre Nuclear Generating Station  
Unit 1

By letter dated April 5, 1989, the NRC requested additional information regarding the qualification and testing of isolation devices that will be used in the San Onofre Unit 1 ATWS Mitigation System. We are currently working with the isolation device manufacturer to develop the requested information. The manufacturer expects to provide a response to the requested information by mid-June. Accordingly, SCE will provide the information to you by June 30, 1989.

If you have any questions or require additional information, please let me know.

Very truly yours,

cc: J. B. Martin, Regional Administrator, NRC Region V  
F. R. Huey, NRC Senior Resident Inspector, San Onofre Units 1, 2 and 3
