Irvine, California 92718

Dear Mr. Ray:

SUBJECT: LICENSEE CONFIRMATION OF ITS RESPONSE TO NRC GENERIC LETTER 89-07,
"POWER REACTOR SAFEGUARDS CONTINGENCY PLANNING FOR SURFACE VEHICLE
BOMBS" (TAC NOS. 74724, 74725 and 74726)

REFERENCE: October 27, 1989 letter from H. E. Morgan (SCE) to Document
Control Desk (NRC); Subject: Docket 50-206, 50-361 and 50-362;
San Onofre Nuclear Generating Station Units 1, 2 and 3; 10 CFR
50.54(p) Changes; Safeguards Contingency Plan, Revision 7.

In your letter dated November 27, 1989, you provided your response to NRC
Generic Letter 89-07, "Power Reactor Safeguards Contingency Planning for
Surface Vehicle Bombs." In your response, you confirmed that activities
required to address the issues discussed in the Generic Letter have been
performed. In this regard, the referenced letter forwarded revision 7 to the
USNRC approved August 1983 "Safeguards Contingency Plan, San Onofre Nuclear
Generating Station, Unit 1, 2 and 3," for NRC review under 10 CFR 50.54(p).
This revision included safeguards contingency planning short-term actions that
could be taken to protect against attempted radiological sabotage involving a
land vehicle bomb if such a threat were to materialize. Your response
satisfies the requirements of Generic Letter 89-07. Therefore, we consider
this action complete.
