Dear Mr. Davis:

LICENSEE INFORMATION CONFERENCE

Your letter dated January 17, 1990 announced the preliminary planning for a Licensee Information Conference tentatively scheduled for late March or early April. We understand that the conference has now been scheduled for sometime in June. We are interested in attending this conference and would anticipate sending between two and four representatives. In addition to those agenda topics listed in your letter, we would suggest cascading technical specification interpretation and the status of the NRC safety goals as other topics that may be of interest to the participants.

We look forward to receiving additional information on the conference dates, agenda, and other details when your plans have been finalized.

Very truly yours,

C. W. Fay
Vice President
Nuclear Power
