Re: San Onofre Nuclear Generating
Station, Units Nos. 2 and 3

Dear Mr. Denton:

Pursuant to a request made by Mr. E. G. Case at the meeting which occurred at the Office of Coastal Zone Management on November 13, 1981, this letter is a representation by Southern California Edison Company that the physical features and administrative controls proposed by the Company to control access to the beach within the exclusion area were incorporated in the application for operating licenses docketed on March 23, 1977, and that there has been no major amendment to the application or changes in such physical features or administrative controls affecting the coastal zone since that time.

Very truly yours,

Robert Dietch
