Gentlemen:

Subject: Transmittal of PFR's to NRC Before Processing

By letter dated February 1, 1982, Southern California Edison (SCE) indicated that Preliminary Finding Reports (PFR's) developed by General Atomic Company (GA) in the course of their independent verification of the seismic design of San Onofre 2 and 3 would no longer be transmitted to the NRC until they are fully processed by GA. While we agree that transmittal on a daily basis is a needless administrative hardship to all parties, we nevertheless believe that transmittal of PFR's to the NRC prior to final processing is desirable, in order to demonstrate continuing independence and allow the effort to be followed as it progresses. Consequently, we request that you transmit the PFR's received from GA on a weekly basis, as well as including a discussion of all PFR's and their dispositioning in the final report.

Sincerely,

Original signed by
