Subject: Additional information needed for amendment request 10/22/13
(NOTE: This will be used as the Documents Title in ADAMS)

I called Mr. Plante to ask him a couple of questions regarding the information contained in their amendment request.

1. The change in RSO requires a subsequent change to the NSTS. I received the necessary information from him for entry into the NSTS, specifically phone, fax, email.
2. I also mentioned to him that according to the last inspection report, they had returned all their 660 cameras back to QSA in exchange for the 880 models. I told him that I would remove all reference to the 660 in Condition 10 of their license. He understood and agreed with their removal from the license.

I told him that everything looked fine and that he should see the amended license in a couple of weeks.

I thank him for his time and ended the call.
