Docket Nos. 50-361

50-362

Southern California Edison Company  
 P.O. Box 800  
 2244 Walnut Grove Avenue  
 Rosemead, California 91770

Attention: Dr. L. T. Papay  
 Vice President, Advanced Engineering

Gentlemen:

Subject: NRC Inspection at San Onofre Units 2 and 3

This refers to the inspections conducted by Mr. R. J. Pate of this office during the period December 1-31, 1979, of activities authorized by NRC Construction Permit Nos. CPPR-97 and 98, and to the discussions of his findings held with Mr. D. E. Nunn and other members of your staff on December 7 and 14, 1979.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10 Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that

any proprietary information identified is contained in an enclosure to the application since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

G. S. Spencer, Chief  
Reactor Construction and  
Engineering Support Branch
