Attention: Mr. J. B. Moore
Vice President, Advanced Engineering

Gentlemen:

Subject: NRC Special Inspection - San Onofre Unit 1

This refers to the inspection conducted by Mr. H. Canter of this office on April 10-11, 1979 of activities authorized by NRC License No. DPR-13, and to the discussion of our findings held by Mr. Canter with Mr. J. Curran and other members of your staff at the conclusion of the inspection.

The inspection was conducted to brief San Onofre personnel on the events that took place at Three Mile Island on March 28, 1979. The inspection consisted of interviews and discussions with personnel and observations by the inspector.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so

that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

J. L. Crews, Chief
Reactor Operations and
Nuclear Support Branch
