Docket No. 50-206

Southern California Edison Company  
P. O. Box 800  
2244 Walnut Grove Avenue  
Rosemead, California 91770

Attention: Mr. J. B. Moore  
Vice President

Gentlemen:

Subject: NRC Management Inspection of San Onofre Unit 1

This refers to the management inspection conducted by Messrs. J. E. Gagliardo, D. R. Hunter and T. T. Martin of the NRC/OIE Performance Appraisal Branch on February 5 through February 16, 1979, of activities at Unit 1 of San Onofre Nuclear Generating Station and the Southern California Edison Company General Offices as authorized by Operating License No. DPR-13 and to the discussion of the findings with you, Mr. J. H. Drake, Mr. J. T. Head, Jr., and others on February 16, 1978, at your general offices.

The enclosed copy of the inspection report (Enclosure 3) identifies the areas examined during the inspection. Within these areas, the inspection consisted of a comprehensive examination of your management controls over licensed activities which included an examination of procedures and records plus extensive interviews with many of your management and supervisory personnel.

This was the second of a series of management appraisal inspections conducted by the NRC Performance Appraisal Branch. The results of this inspection will be used to evaluate the performance of your management control systems from a national perspective. The enclosed inspection report addresses the enforcement findings from this inspection and the observations which will provide the basis for the subsequent performance appraisal. Paragraph 2 of the enclosed report provides additional information regarding the findings and how they will be utilized.

Eight unresolved items are identified in the inspection report. These items will be reviewed by Region V inspectors during subsequent inspections.

During this inspection, it was found that certain of your activities appeared to be in noncompliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to

this office within twenty (20) days of your receipt of this notice a written statement or explanation in reply, including for each item of noncompliance: (1) corrective action taken and the results achieved; (2) corrective action to be taken to avoid further noncompliance; and (3) the date when full compliance will be achieved.

During this inspection, it was also found that one of your activities appeared to deviate from your commitment in the FSAR, as set forth in the Notice of Deviation enclosed herewith as Appendix B. Please submit to this office, within twenty (20) days of your receipt of this notice, a written statement or explanation in reply including the cause of the deviation and the steps you plan to take to assure timely implementation and completion of corrective actions. Your written reply should include the date(s) when your corrective action(s) were or will be completed.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you or your contractors believe to be proprietary, it is necessary that you make a written application within twenty (20) days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

  
For J. L. Crews, Chief,  
Reactor Operations and Nuclear  
Support Branch
