Docket No. 50-206

Southern California Edison Company
2244 Walnut Grove Avenue
Rosemead, California 91770

Attention: Mr. Kenneth P. Baskin, Vice President
Nuclear Engineering, Safety and Licensing Department

Gentlemen:

Subject: NRC Inspection of San Onofre Unit 1

This refers to the routine inspection conducted by Messrs. C. Clark and consultant R. Compton of this office on July 22-26, 1985, of activities authorized by NRC License No. DPR-13 and to the discussion of our findings held with members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector and consultant.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A.

Your response to this Notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

A large number of discrepant conditions were identified during this inspection. We are concerned about your apparent lack of management attention to the effective implementation of site IST procedures and your apparent failure to apply sufficient attention to the IST program. In addition to the response directed by the enclosed notice, please address this issue in your reply, along with the actions you will take to ensure timely and effective corrective actions for the identified violation.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection we will be glad to discuss them with you.
