Director of Nuclear Reactor Regulation
Attention: J. A. Zwolinski, Chief
Operating Reactors Branch No. 5
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket No. 50-206
Environmental Qualification of Electrical Equipment
San Onofre Nuclear Generating Station
Unit 1

As part of efforts to return San Onofre Unit 1 to service, we have developed justifications for continued operation (JCO's) for equipment requiring environmental qualification for your approval. We have discussed these JCO's with members of the staff during the environmental qualification audit at San Onofre Unit 1 on October 2-4, 1984 and in a meeting with the staff on October 26, 1984. Included here as an enclosure are the JCO's for all the equipment in the San Onofre Unit 1 environmental qualification program.

If you have any questions regarding this matter, please let me know.

Very truly yours,

Enclosure
