Re: Amendment to USNRC License #16-17316-01E

Dear Sir or Madam,

General Electric Company (GE Lighting), located at 1975 Noble Road, East Cleveland and listed on U. S. Nuclear Regulatory Commission (USNRC) Exempt Distribution License No. 16-17316-01E requests that the Ravenna Lamp Plant located at 6800 North Chestnut St., Ravenna, Ohio (also listed on the subject license) be removed from the license by the issuance of a license amendment. The Ravenna plant ceased processing, manufacturing, and possession of licensed materials as described under *Authorized Use* of the subject license on 19 Jan 2012.

Of the authorized radionuclides listed on the license, only krypton-85 (Kr-85) was used in the assembly of the arc tubes and glow switches. Tritium (H-3) and promethium-147, the other radionuclides authorized on the subject license, were never used in these products or received at the plant. Because Ravenna never took possession of H-3 and Pr-147, the performance of a final status survey to document that the facility can be released for unrestricted use with respect to these licensed activities is not required. Given the fact that K-85 is a noble gas, the potential for any residual amounts of K-85 present are non-existent and do not require release surveys. Any remaining products containing K-85 have been removed from the plant in accordance with applicable regulations and license conditions. An executed copy of NRC Form 314, *Certificate of Disposition of Materials*, is enclosed with this letter.

If you have any questions or if I can provide you with additional information, please do not hesitate to contact me at (216) 266-2507 or [seth.sedgwick@ge.com](mailto:seth.sedgwick@ge.com). I look forward to receiving notice that the subject license has been amended as requested.

Best regards,

Seth Sedgwick, CSP, CIH

**CERTIFICATE OF DISPOSITION OF MATERIALS**

Estimated burden per response to comply with this mandatory collection request 30 minutes. This submittal is used by NRC as part of the basis for its determination that the facility is released for unrestricted use. Send comments regarding burden estimate to the Information Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to [Infocollects.Resource@nrc.gov](mailto:Infocollects.Resource@nrc.gov), and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0028), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.
