Gentlemen:

Subject: Docket No. 50-206
Supplement 1 to NUREG-0737
Requirements for Emergency Response Capability
(Generic Letter No. 82-33)
San Onofre Nuclear Generating Station
Unit 1

Reference: Letter, R. W. Krieger, SCE, to D. G. Eisenhut, NRC, Supplement 1
to NUREG-0737, Requirements for Emergency Response Capability,
April 21, 1983

The referenced letter provided you with the current status of our compliance with the initiatives of Supplement 1 to NUREG-0737 and indicated that after startup from the extended San Onofre Unit 1 outage, we would provide our detailed response to NRC Generic Letter No. 82-33. In response to that commitment, the following information regarding our implementation plan and schedule is provided in accordance with the instructions of Generic Letter No. 82-33.

Since the San Onofre Unit 1 return to service on November 27, 1984, we have been planning and scheduling future efforts required for continued operation of the facility. One of these efforts is our plan for compliance with the initiatives of Supplement 1 to NUREG-0737 - Requirements for Emergency Response Capability (Supplement 1). Our program plan and schedule for these activities is provided in the enclosure to this letter. In addition we will include the detailed schedules for these activities in the next update of the Integrated Living Schedule.
