Dear Mr. Baskin:

SUBJECT: GENERIC LETTER 83-28 ITEM 1.2 - DATA AND INFORMATION CAPABILITIES

Re: San Onofre Nuclear Generating Station, Unit No. 1

The staff has completed its preliminary review of the subject item addressed by your submittal dated November 28, 1983. The staff's contractor, Science Applications International Corporation (SAIC), has prepared the enclosed Technical Evaluation Report (TER) which provides the review criteria being used by the staff to resolve Generic Letter 83-28 Item 1.2. The TER, which the staff has reviewed and approved, compares the Data and Information capabilities described in your submittal to the staff's recommended review criteria. For the areas in which your submittal is not consistent with the staff's recommendations, we would like to have further discussions to determine if the existing data and information capabilities at San Onofre, Unit 1 meet the intent of the staff's review criteria. Your NRC project manager will contact your staff to arrange these discussions.

Sincerely
