Southern California Edison Company  
P. O. Box 800  
2244 Walnut Grove Avenue  
Rosemead, California 91770

Attention: Mr. K. P. Baskin, Vice President  
Nuclear Engineering, Safety and Licensing

Gentlemen:

Subject: Quality Assurance Program Description for San Onofre  
Units 1, 2 and 3

By letter dated June 28, 1985, (M. O. Medford to J. B. Martin) the Southern California Edison Company (SCE) submitted Change Notice Number 12 to Topical Report, SCE-1-A "Quality Assurance Program", Amendment 7, dated June 1984, as the current Quality Assurance Program description for San Onofre Nuclear Generating Station Units 1, 2 and 3. This submittal was made in accordance with the requirements of 10 CFR 50.54(a).

Based on our evaluation of the changes implemented by Change Notice Number 12, we find that the revised topical report continues to meet the criteria of Appendix B to 10 CFR Part 50 and is therefore acceptable for Units 1, 2 and 3.

Should you have any questions regarding our review or if we can provide assistance, please contact W. J. Wagner at (415) 943-3731.

Sincerely,

151

D. F. Kirsch, Acting Director  
Division of Reactor Projects and Safety
