Dear Mr. Baskin:

SUBJECT: REVIEW OF LICENSE CONDITION STEAM GENERATOR INSPECTION REPORT

Re: San Onofre Nuclear Generating Station, Unit 1 (SONGS-1)

Reference: Letter dated March 10, 1986, M.O. Medford (SCE) to G. E. Lear
(NRC)

In the letter referenced above you provided a steam generator inspection report as required by License Condition 3.E. This license condition requires NRC review and approval of steam generator inspection results prior to resuming power operation following the inspection.

The staff has completed its review of your submittal. We have concluded that License Condition 3.E has been satisfactorily addressed and that resumption of power operation at SONGS-1, as related to this license condition, is acceptable. Details of the staff's review are provided in the enclosed Safety Evaluation (SE). Section E of the attached SE also provides staff recommendations for the next steam generator inspection.

Sincerely,

/s/
Richard F. Dudley, Project Manager
Project Directorate #1
Division of PWR Licensing-A
