SUBJECT: NRC APPROVAL OF HONEYWELL INTERNATIONAL INC. REQUEST FOR
WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE OF
QUARTERLY GENERAL LICENSE DEVICE TRANSFER REPORTS

Dear Mr. Caines,

Honeywell International Inc. submitted an affidavit dated October 30, 2013, requesting that the entire content of the quarterly reports submitted to NRC regarding the distribution of Generally Licensed nuclear devices be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

Release to the public of the information included in the quarterly reports would cause significant commercial and operational harm to Honeywell, as it includes information concerning business trade secrets and other confidential commercial information.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information contained in your quarterly device transfer reports, sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the information in your quarterly reports submitted to the NRC marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5).

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information.
