Name: Dorothy=== McNeil

General Comment

NRC:

In June 2012 the U.S. Court of Appeals in D.C. required the NRC to study the environmental impacts of storing spent fuel indefinitely. Now you, the NRC, want comments on our plan to store radioactive waste on our seismically active coastline for 300 years. What do I think? I hope a negative answer is as obvious to you as to everyone else.

My question to you is, "Who owns you?" It certainly is not the public you are supposed to serve, the 99%. Big money owns our country today.

Reason has been discarded. Example: San Onofre closed because repair was too costly -- not because of safety.

Must we find a money answer for you and PG & E? Or are you providing it?

- a. store spent waste
- b. continue Seismic Studies
- c. wait for an earthquake
