Dear Mr. DeLaBarre:

Enclosed is an email, dated November 20, 2013, from Westinghouse Electric Company LLC, requesting one additional intermediate foreign consignee, KW Nuclear Components in the Republic of Korea, be added to its export license application XR176. License application XR176 was forwarded to you in a NRC letter dated June 15, 2012, and is currently pending Executive Branch views.

Since there are no other changes to the application, our office is continuing to expect to receive Executive Branch views.

Sincerely,

A handwritten signature in black ink, appearing to read "BGS" with "FER" written below it.

Thank you, Jane.

Westinghouse would like to amend our export license application XR176 to ship nuclear components and equipment to the UAE. We would like to add one additional intermediate foreign consignee to the license. This entity will be performing further manufacturing and processing of minor fuel components and TREX to finished equipment which will then be shipped to the ultimate consignee in the UAE for use at the civil nuclear reactor at the BRAKA (Barakah) site. The additional intermediate foreign consignee is:

KW Nuclear Components
493 Deokjin-dong Yuseong-gu
Daejeon, 305-353
Republic of Korea

Please let me know if there is any further information required. I appreciate your consideration in this matter.

Subject: Adding Intermediate to XR176

Carol,

I checked with our Branch Chief on adding additional intermediate consignee to license application XR176. There is no additional licensing fee required since the application is still pending the Executive Branch views. Please send an email to make the request and

we will add the email to the application package.

Thank you for contacting us.
