1992 Annual Facility Change Report
San Onofre Nuclear Generating Station, Units 1, 2, and 3

This letter transmits the Annual Facility Change Report required by 10 CFR 50.59(b)(2) for San Onofre Units 1, 2, and 3 for 1992. The report contains a brief description of facility changes, procedure changes, tests, and experiments conducted during the calendar year January 1 through December 31, 1992.

Enclosure 1 provides a summary of the facility changes implemented in 1992, including a summary of the safety evaluation performed for each change. The summaries provided in Enclosure 1 should be sufficient to identify the nature, scope and safety significance of the change. Complete facility change documentation is available onsite should more detailed information be desired. Enclosure 2 provides a summary statement regarding procedural changes. There were no special tests or experiments performed during the reporting period.

If you require any additional information, please let me know.

Sincerely,

Enclosures
