Facility Change Report  
San Onofre Nuclear Generating Station, Units 1, 2, and 3

This letter transmits the Facility Change Report required by 10 CFR 50.59(b)(2) for San Onofre Units 1, 2, and 3 for 1993. The report contains a brief description of facility changes, procedure changes, tests and experiments completed through the calendar year 1993.

Enclosure 1 provides a summary of the facility changes implemented during this period, including a summary of the safety evaluation performed for each change. Complete facility change documentation is available onsite should more detailed information be desired. Enclosure 2 provides a summary of changes to procedures as described in the Safety Analysis Report. There were no special tests or experiments performed during the reporting period.

If you require any additional information, please let me know.

Sincerely,

*Walter C. Marsh*
