Docket No. 50-206

Mr. James H. Drake
Vice President
Southern California Edison Company
2244 Walnut Grove Avenue
Post Office Box 800
Rosemead, California 91770

Dear Mr. Drake:

During the issuance of Amendment No. 42, dated July 6, 1979, to Provisional Operating License No. DPR-13 for the San Onofre Nuclear Generating Station Unit 1, we inadvertently changed the Appendix B Technical Specification (ETS) 5.3.2.a, membership of the Nuclear Audit and Review Committee (page 5-5), instead of ETS 5.3.1.a, membership of the Onsite Review Committee (page 5-1). In addition, Figures 6.2.1.1 and 5.2-1, which were approved by Amendment No. 42, were unintentionally omitted. The enclosed pages correct these editorial and administrative errors.

We regret any inconvenience these errors may have caused you.

Sincerely,

Original Signed by:
Dennis L. Ziemann

Dennis L. Ziemann, Chief
Operating Reactors Branch #2
Division of Operating Reactors

*Also reinstates page 5-5 (Appendix B), as issued by License Amendment No. 39, which was inadvertently changed during the issuance of Amendment No. 42, dated July 6, 1979.

FIGURE 6.2.1.1
OFFSITE ORGANIZATION

(Correction)

5.1

Responsibility

The Southern California Edison Company shall be solely responsible for the operation of San Onofre Nuclear Generating Station Unit 1. Management responsibility at the station and corporate levels shall be as specified in Section 5.3: and shall ensure that these environmental technical specifications are fully implemented and that continued protection to the environment shall be provided at all times. Responsibility shall be exercised at the corporate level to provide that the group, individual or organization assigned to audit or otherwise verify that an activity has been correctly performed is independent of the individual, group or organization directly responsible for performing the specific activity. Where other organizations are delegated responsibility for executing portions of these environmental technical specifications, the Southern California Edison Company shall retain responsibility for all such activities. A detailed description of the program utilized to audit or otherwise verify that an activity has been correctly performed shall be developed and submitted to the Directorate of Licensing for review within 4 months of the effective date of these environmental technical specifications. The audit and verification program shall be established and conducted in accordance with this program description.

5.2

Organization

5.2.1

The corporate organization, which provides the line responsibility for the operation of the Station and the staff responsibilities in support of these operations, is depicted in Figure 5.2-1.

5.2.2

The Station organization utilized in the operation and maintenance of the Station is depicted in Figure 5.2-2.

5.2.3

The Supervisor of Chemistry & Radiation Protection shall be the Onsite Review Committee member responsible for environmental issues. This member shall be qualified in environmental matters.

5.3

Review and Audit

Review and audit of Station operations shall be provided by the Onsite Review Committee, the Nuclear Audit and Review Committee, the Nuclear Control Board, and the Quality Assurance Organization.

5.3.1

The membership of the Onsite Review Committee and the responsibilities and authorities of the Committee with respect to these environmental technical specifications are as follows:

a. Membership

- (1) Plant Manager (Chairman)
- (2) Superintendent
- (3) Supervising Engineer
- (4) Supervisor of Plant Operations
- (5) Supervisor of Plant Instrumentation
- (6) Supervisor of Chemical & Radiation
- (7) Supervisor of Plant Maintenance
- (8) Nuclear Engineer
- (9) San Diego Gas & Electric Representative

(Correction)

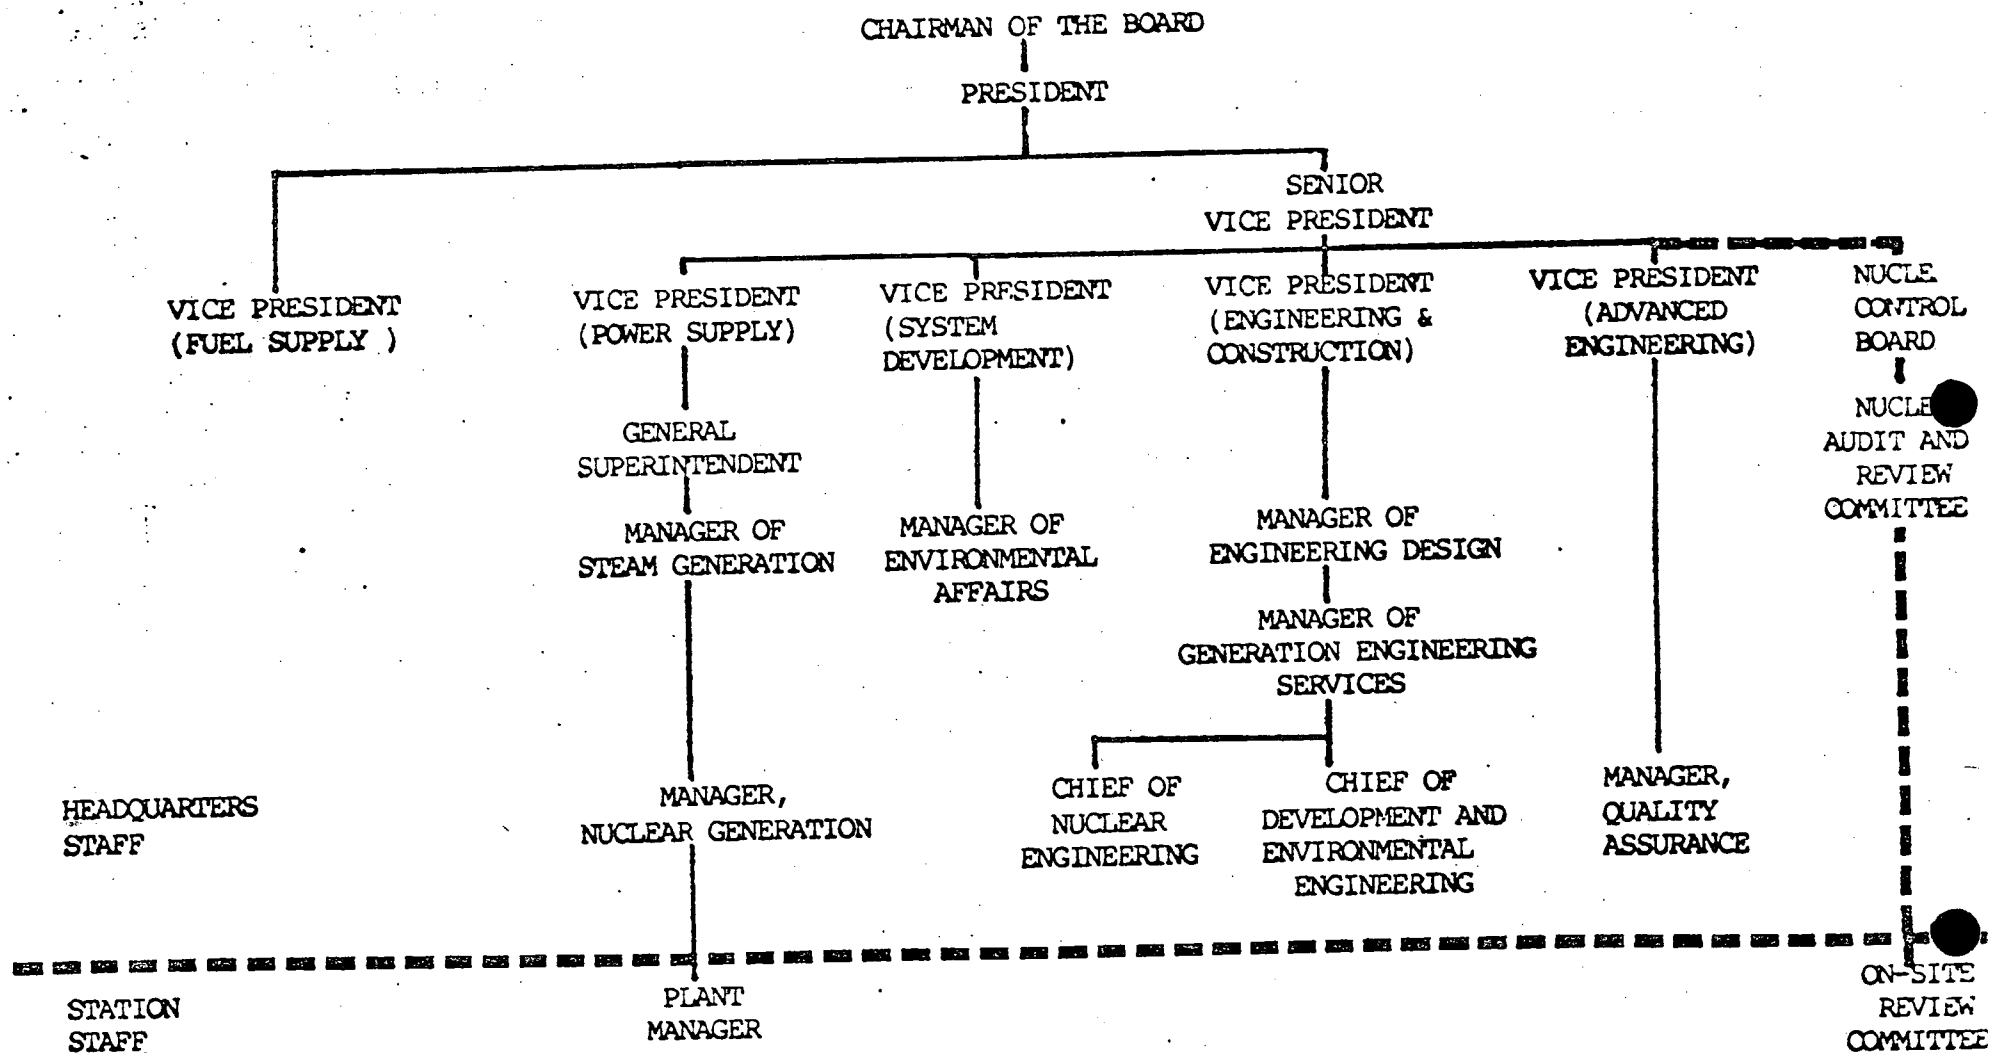

FIGURE 5.2-1 SOUTHERN CALIFORNIA EDISON COMPANY CORPORATE ORGANIZATION

The membership of the Nuclear Audit and Review Committee and the responsibilities and authorities of the Committee with respect to these environmental technical specifications are as follows:

a. Membership (Chairman designated by the Nuclear Control Board)

- (1) Manager, Generation Engineering Services
- (2) Manager of Environmental Affairs
- (3) Manager of Steam Generation
- (4) Chief of Nuclear Engineering
- (5) Chief of Development & Environmental Engineering
- (6) Manager of Quality Assurance
- (7) Manager, Nuclear Generation
- (8) San Diego Gas & Electric Representative

b. Responsibilities

- (1) Review and investigate reports concerning violations of the Environmental Technical Specifications. Where investigation indicates, evaluate and prepare recommendations to prevent their recurrence.
- (2) Review proposed changes to the Environmental Technical Specifications. Coordinate environmental technical specifications with the safety technical specifications to avoid conflicts and maintain consistency. Submit approved proposed changes to the Environmental Technical Specifications to the Nuclear Control Board for transmittal.
- (3) Review and approve proposed changes to the facility and its procedures or proposed tests or experiments which are forwarded by the Onsite Review Committee when they involve a change in the Environmental Technical Specifications, or a change which would significantly alter the environmental impact of the facility. Submit such proposed changes when required with appropriate environmental analysis to the Nuclear Control Board for transmittal.
- (4) Review all environmental surveillance programs for compliance with these environmental technical specifications.
- (5) Review all design changes related to changes in the Station which relate to the environmental impact of the station and its operation.
- (6) Review overall facility activities as they relate to environmental impact by:
 - (a) formal facility review annually and as directed by the Committee Chairman.
