Gentlemen:

Subject: **Docket No. 50-206**
Supplement 2 to Amendment Application No. 176
San Onofre Nuclear Generating Station Unit 1

The purpose of this letter is to provide you with Supplement 2 to Amendment Application No. 176. Amendment Application No. 176 and Supplement 1 to Amendment Application No. 176 were submitted to resolve editorial discrepancies within the SONGS 1 Technical Specifications and revise Section 6.4.1, Training, to reflect a revision to 10 CFR 55. Supplement 2 provides corrected pages for additional typographical errors and oversights that have been identified or introduced into the technical specifications since the submittal of Amendment Application No. 176 and Supplement 1. Supplement 2 supersedes Amendment Application No. 176, dated March 6, 1990, and Supplement 1, dated October 25, 1990, in their entirety.

If you have any questions regarding this supplement, please call me.

Very Truly Yours,

Enclosures
