

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION V

1450 MARIA LANE  
WALNUT CREEK, CALIFORNIA 94596-5368

FEB 12 1993

Docket Nos. 50-206, 50-361, 50-362

Southern California Edison Company  
Irvine Operations Center  
23 Parker Street  
Irvine, California 92718

Attention: Mr. Harold B. Ray, Senior Vice President, Nuclear

SUBJECT: MANAGEMENT MEETING REPORT FOR INITIAL SYSTEMATIC ASSESSMENT OF  
LICENSEE PERFORMANCE (SALP) REPORT

This refers to the NRC's Initial SALP Board Report No. 50-206/361/362/92-28, which was transmitted to you by our letter dated December 24, 1992. During our management meeting held with you and members of your staff at the San Onofre site on January 14, 1993, we discussed the results of that assessment. The subjects discussed during the meeting are summarized in the enclosed meeting report. A copy of the agenda for the meeting is also enclosed.

As discussed in the initial SALP report, the SALP Board found your overall performance to be good, in some cases superior, and clearly directed toward safe facility operation. During our meeting you identified efforts you have implemented to further improve performance. We strongly support these ongoing improvement initiatives.

No response to this letter is required. However, we note that you plan to respond to some of the issues discussed during our January 14, 1993 meeting. As a result, we will review your submittal and consider your comments as they relate to our assessment in the initial SALP report. A final SALP report will be issued within 30 days of the date of your submittal.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning the enclosed meeting report, we will be pleased to discuss them with you.

Sincerely,

K. Perkins, Director  
Division of Reactor Safety  
and Projects
