Docket Nos. 50-206, 50-361, 50-362

Southern California Edison Company
Irvine Operations Center
23 Parker Street
Irvine, California 92718

Attention: Mr. Harold B. Ray, Senior Vice President, Power Systems

SUBJECT: NRC MEETING REPORT NOS. 50-206/361/362/93-24

This refers to the management meeting held with Southern California Edison Company (SCE) and NRC Region V management at the San Onofre Nuclear Generating Station (SONGS) on July 29, 1993. The purpose of the meeting was to discuss the new organization structure and senior management changes at SONGS, the status of Unit 1, recent Units 2 and 3 steam generator issues, and recent engineering and maintenance issues. Details of the meeting are described in the enclosed Meeting Report.

Overall we found the meeting to be beneficial. We recognize the efforts you have taken in the steam generator tube inspection program and in keeping us informed of the results of those inspections. We support your continued efforts to closely monitor the steam generator leakage in Unit 3 and to be watchful for any indications of a more significant concern. In addition, we will continue to monitor the impact of the organizational changes discussed during the meeting for improvement of overall station performance and communications.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

C. A. VanDenburgh, Chief
Reactor Projects Branch
