November 20, 2013

To: Nuclear Regulatory Commission  
Re: Docket ID No. NRC–2012–0246 Spent Fuel Containment  
Waste Confidence Environmental Impact Statement

Dear NRC Commissioners,

In light of the difficulties experienced at the Fukushima Nuclear Plant, I request that the points and arguments made by the San Luis Obispo Mothers For Peace be considered as those of my own.

A new and dangerous earthquake has occurred in the Fukushima area as TEPCO is transferring thousands of spent fuel rods out of dangerously stored pools. The world holds its breath with each minute of this operation in remembrance of that fateful moment in March 2011 when we became aware of the dangers we face with radioactive waste. The SLO Mothers For Peace have asked for expediency in moving Diablo Canyon's spent fuel rods from storage pools into onsite dry casks. Equally important is the SLO MFP call to cease relicensing of existing nuclear power plants including the licensing of Diablo Canyon. Making more waste is senseless and dangerous for existing generations and those yet to be born.

In view of the above mentioned hazard at Fukushima, I reject any confidence in NRC's plan to relicense any nuclear power plants and NRC's confidence in storage of Diablo's waste in spent fuel storage ponds. Please consider the points made by the SLO Mothers For Peace and adopt their recommendations.

Sincerely,

Sheila Baker  
210 Douglas St. Apt. 202  
Petaluma, CA 94952
