Subject: Regulate the Dumping of Nuclear Waste

Nov 21, 2013

Secretary U.S. Nuclear Regulatory Commission Rulemakings and Adjudications Staff Washington, DC 20555-0001

ATTN: Secretary Rulemakings and Adjudications Staff,

You must regulate nuclear waste's dumping. If it's dumped in the water, then the fish can get poisoned. It can also kill the fish.

Even fish that don't get directly affected, can still get indirectly affected, if they eat enough fish affected by the nuclear waste. Also humans who eat the intoxicated fish can get sick. Also the nuclear waste can make the water dangerous to swim. We can can accidently swallow the water.

Thank you for your consideration.

Respectfully,

Mr. lawrence rosin
601 Surf Ave Apt 2k
Brooklyn, NY 11224-3426
