SUBJECT: ACKNOWLEDGEMENT OF LICENSEE NOTIFICATION OF POTENTIAL VIOLATIONS, UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES, ARMED FORCES RADIOBIOLOGICAL RESEARCH INSTITUTE

Dear Col. Huff:

On July 8, 2013, we received your letter dated June 7, 2013, informing the NRC of two potential violations, one associated with 10 CFR 20.1902(e) and the other associated with License Condition 27. You determined that a room that contained approximately 7.15 grams of total Uranium in 40 ounces of solution had its posting removed. You also determined that a refrigerator had been removed from the same room without performing a required survey. This survey is required by procedure and thus by item 6.f. of your application dated June 28, 2004. You informed us of your corrective actions and the action to prevent reoccurrence. We have reviewed the letter and determined that we will further evaluate the two potential violations and your corrective actions during the next routine inspection.

Your cooperation is appreciated.

Sincerely,
