Subject: thank you

We appreciate your efforts to rid our world of the the ridiculous (if it weren't so insane) production of heat to boil water using nuclear fission. It's quite apparent to any reasonable person that human beings have no business playing with such a potentially harmful technology on such a large scale with our current inability to foresee our errors and even behave civilly towards one another.

On behalf of our 7 year old daughter who has no real idea what horrors humans have and continue to unleash on one another we thank you.

Tim & Lisa Jouet
