DOCKET NO. 50-206

Southern California Edison Company
 ATTN: Mr. William H. Seaman
 Vice President
 P.O. Box 800
 2244 Walnut Grove Avenue
 Rosemead, California 91770

Gentlemen:

This refers to your September 10, 1979 request for route approval to cover shipments of San Onofre Unit 1 spent fuel to Morris, Illinois.

We have determined that the review of licensee route approval requests is subject to the Commission's license fee schedule in 10 CFR 170. For reactor licensees, fees for the review of route approval requests will be assessed under fee Category F of Section 170.21, as special projects. In accordance with Footnote 4 of Section 170.21, the charge for the review will be determined by the Commission based on the professional manpower required to conduct the review plus any support costs. In determining the fee to be charged, only actual staff time expended in the review of the route request is used to calculate the fee; the route (field) survey conducted by the NRC staff is excluded from fee computation.

The review of the September 10, 1979 route approval request was completed on November 30, 1979 (copy enclosed). The cost of the review amounted to \$1,843 (48.5 man-hours @ \$38/m-hr.). We have notified the NRC Office of the Controller to issue your Company an invoice for the fee.

We apologize for the delay in notifying you of the fee requirement for route approval reviews. If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed by
 Wm. O. Miller

William O. Miller, Chief
