Director, Office of Nuclear Reactor Regulation
Attention: D. M. Crutchfield, Chief
Operating Reactors Branch No. 5
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket No. 50-206
Status of NUREG-0737, Item II.D.1
Performance Testing of Boiling-Water Reactor and Pressurized Water
Reactor Relief and Safety Valves
San Onofre Nuclear Generating Station
Unit 1

By letter dated July 1, 1981, R. C. Youngdahl (Consumers Power) transmitted the Interim Data Report for the EPRI Safety Relief Valve Test Program. This report summarizes the test data collected to date on relief and safety valves. San Onofre Unit 1 has Muesco Controls (BS&B) model number 70-18-9 DRTX relief valves and Crosby Valve and Gage HB-BP-86 (Size 3K26) Safety Valves. Relief and Safety valves representative of the above valves are being testing in the EPRI program. We will submit evaluations and other plant specific data on a schedule consistent with the R. C. Youngdahl letter of December 15, 1980 as modified in the July 1, 1981 letter.

If you have any questions, please feel free to contact
Mr. Christopher Pendleton of my organization at (213) 572-1777.

Very truly yours,

K P Baskin
