Mr. Lodhi:

I'm understand, for all violations answer four items:

- 1-reason for the violation
- 2-the corrective steps and results
- 3-corrective steps that will be taken to avoid further violations
- 4-the date when full compliance

I will review the letter and I will correct the answers as requested.

Thanks,

A. Díaz

Mr. Diaz:

I do not think you understand my messages or the Notice of Violation. Simply sending your radiation safety program is not sufficient. PLEASE read the Notice of Violation carefully. At the end of the list of violations, there are instructions for responding to the Notice of Violations. For each violation, you have to respond to four items.

Please list each violation one at a time, and for each violation answer those four items. The instructions also tell you where to send the response. Again, please read the instructions very carefully and then prepare your respond. Thank you

Dear Mr. Lodhi:

Sending documents related to Notice of Violation # 0303781/2013001 and the documents that support our answer.

I hope that you are satisfied with the measures that we are taking about the issues that you found regarding our nuclear machines. When you look the attachments I send you with all the documentation please let me know if there is something I can do to improve.

We hope to meet all regulations and that the nuclear program of our company will be efficient.

Thanks for your attention.
