Mr. Lawyer,

1. Mr. Jeremy Ford and I enjoyed our conversation on 4 Nov 13. AS discussed, U.S. Army Aberdeen Test Center requests the withdrawal of the decommissioning Final Status Survey Report (FSSR) for Building 745 under NRC License SUB 834. We plan to make revisions on the Derived Concentration Guidelines in the FSSR for a later submission date.
2. Please contact me should you have any questions.

Very respectfully,
