Gentlemen:

Subject: Docket No. 50-206
Supplement to Amendment Application No. 170
Containment Venting
San Onofre Nuclear Generating Station
Unit 1

We submitted a supplement to Amendment Application No. 170 by letter dated May 3, 1990. Inadvertently, the wrong version of page 3.6-10 was also submitted with the supplement. The correct page is included as an enclosure.

The enclosed page with the revised third paragraph is the page which was approved by SCE for submittal. Prior to submitting the supplement, the approved page was inadvertently replaced with the page which had the incorrect paragraph. Therefore, please discard page 3.6-10 included with the May 3, 1990 supplement and include the enclosed page 3.6-10 in your review and approval of the amendment and supplement.

If you have questions in this matter, please let me know.

Very truly yours,

F. R. Nandy
Manager of Nuclear Licensing
