

BEFORE THE UNITED STATES NUCLEAR REGULATORY COMMISSION

Application of SOUTHERN CALIFORNIA EDISON)	
COMPANY and SAN DIEGO GAS & ELECTRIC COMPANY)	DOCKET NO. 50-206
for a Class 104(b) License to Acquire,)	
Possess, and Use a Utilization Facility as)	
Part of Unit No. 1 of the San Onofre Nuclear)	Amendment Application
Generating Station)	No. 188

SOUTHERN CALIFORNIA EDISON COMPANY and SAN DIEGO GAS & ELECTRIC COMPANY,
pursuant to 10 CFR 50.90, hereby submit Amendment Application
No. 188.

This amendment application consists of Proposed Change No. 151 to Provisional
Operating License No. DPR-13. Proposed Change No. 151 modifies the Technical
Specifications incorporated in Provisional Operating License No. DPR-13 as
Appendix A.

The proposed change will entirely replace the existing Section 3.3, "Safety
Injection and Containment Spray System," with a new Section 3.3, "Emergency
Core Cooling Systems." This proposed change incorporates new specifications
for the operation of the recirculation system and provides new specifications
for the operation of Emergency Core Cooling System components to reduce the
need to apply Technical Specification 3.0.3. Section 3.5, "Containment
Isolation," is being revised to remove a conflict in the operability
requirements for the safety injection sequencer. Section 4.2, "Safety
Injection and Containment Spray System," is being revised to incorporate the
additional surveillance requirements for the ECCS and inspection of the
containment.

In the event of conflict, the information in Amendment Application No. 188 supersedes the information previously submitted.

Based on the significant hazards analysis provided in the Description of Proposed Change and Significant Hazards Consideration Analysis of Proposed Change No. 151, it is concluded that (1) the proposed change does not involve a significant hazards consideration as defined in 10 CFR 50.92, and (2) there is reasonable assurance that the health and safety of the public will not be endangered by the proposed change.

Subscribed on the 31st day of August, 1990.

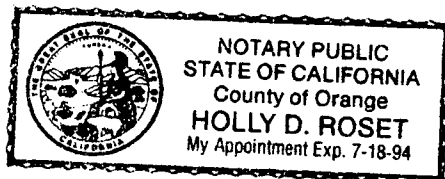

Respectfully submitted,

SOUTHERN CALIFORNIA EDISON COMPANY
