Subject: Docket No. 50-206
Monthly Operating Report for July 1990
San Onofre Nuclear Generating Station, Unit 1

Technical Specification 6.9.1.10 to Provisional Operating License DPR-13 for the San Onofre Nuclear Generating Station, Unit 1, requires SCE provide a Monthly Operating Report which includes: routine operating statistics and shutdown experience; and, all challenges to pressurizer safety and relief valves.

This letter transmits the July 1990 Monthly Operating Report for Unit 1. There were no challenges to pressurizer safety or relief valves during the reporting period.

A revised "Operating Status" sheet for the June 1990 report is included as Attachment A to correct a previous error involving the Net Electrical Energy Generated. The affected portions of this sheet are appropriately noted.

If you require any additional information, please let me know.

Very truly yours,

Enclosures
