Gentlemen:

Subject: Docket No. 50-206
Updated Fire Hazards Analysis (UFHA)
San Onofre Nuclear Generating Station
Unit 1

By letter dated November 20, 1987, SCE informed the NRC that due to the magnitude of incorporating the San Onofre Units 2 and 3 Appendix R reassessment into the next annual revision of the Updated Fire Hazards Analysis (Revision 4), additional preparation time would be required. Since the UFHA is common to San Onofre Units 1, 2 and 3, SCE has determined that it would be prudent to submit the Unit 1 specific information together with the Units 2 and 3 portion. Therefore, SCE expects to transmit the UFHA, Revision 4 for San Onofre Units 1, 2 and 3 to the NRC by May 31, 1988.

If there are any questions, please contact me.

Very truly yours,

cc: J. B. Martin, Regional Administrator, NRC Region V
F. R. Huey, NRC Senior Resident Inspector, San Onofre Units 1, 2 and 3
