Gentlemen:

Subject: Docket No. 50-206
Emergency Planning Procedures
San Onofre Nuclear Generating Station
Unit 1 *GL-81-27*

Provided as an enclosure are ten copies of revised Emergency Planning procedures for San Onofre Unit 1. As you know Appendix E to 10CFR50 requires that changes to the procedures be provided to the NRC. The revised procedures are dated February 22, 1982 and have been in effect since that date. It is noted that the procedure numbering has also been revised. All the enclosed Emergency Planning procedures are identified, with an S0123, with the exception of S01 VIII-11.1 and S023 VIII-11.1. These two procedures are unique to the specific units, whereas the others are general.

The proprietary information in these procedures is contained in procedure S0123-VIII-16, Attachment 8.1, Table 1. The information is identified by brackets.

If you have any questions regarding these procedures, please let me know.

Very truly yours,

R. H. Engelken
for K. P. Baskin

Enclosure
