Gentlemen:

Subject: Docket No. 50-206
Emergency Planning Procedures
San Onofre Nuclear Generating Station
Unit 1

Provided as an enclosure are ten copies of revised Emergency Planning procedure S01-VIII-11.1, Classification of Emergencies for the San Onofre Unit 1. As you know Appendix E to 10CFR50 requires that changes to the procedure be provided to the NRC. The revised procedure is dated October 4, 1982 and has been in effect since that date. This procedure was inadvertently omitted from our October 29, 1982 submittal.

If you have any questions regarding these procedures, please let me know.

Very truly yours,

RW Krueger for KPBaskin
