Subject: Notification of Readiness for NRC 95001 Inspection

Reference: Letter from C. Casto (US NRC) to M. Pacilio "Final Significance Determination of a White Finding with Assessment Followup and Notice of Violation; NRC Inspection Report No. 05000237/2013002, 05000249/2013002; Dresden Nuclear Power Station, Units 2 and 3," dated July 31, 2013

In the referenced letter, Exelon Generation Company, LLC (EGC) received the final significance determination of a White Finding and a Notice of Violation for Dresden Nuclear Power Station, Units 2 and 3. The referenced letter stated that, as a result of the White Finding, the NRC planned to conduct a supplemental inspection in accordance with Inspection Procedure (IP) 95001, "Supplemental Inspection for One or Two White Inputs in a Strategic Performance Area." Additionally, the letter requested that EGC provide notification of readiness for a 95001 supplemental inspection.

The purpose of this letter is to inform the NRC that EGC is ready for the NRC to conduct the IP 95001 supplemental inspection. Based on discussions with NRC staff, EGC requests the NRC commence the inspection on December 16, 2013.

There are no regulatory commitments contained in this submittal.

Should you have any questions concerning this letter, please contact Mr. Glen K. Morrow at (815) 416-2800.
