Subject: DIABLO

Hello NRC:

I crossed a blue line and was arrested in front of the entrance to Diablo in 1978 because as a responsible Biologist I felt nuclear waste should NOT be produced until proper safe storage is provided. Radiation modifies DNA!!!! I paid a fine and went to jail. At the time PG&E claimed it would have proper storage when needed---I guess Yucca Mt.

Why does the NRC permit Diablo to operate?? Diablo has earthquake faults like the Japanese Disaster. The NRC should demand that PG&E STOP producing this terrible nuclear waste or pay a fine & go to jail as I did.

Tomorrow, Dec. 7th, I will be demonstrating in front of main gate of Diablo at 10am (but not crossing the blue line)----all legal. Our signs: NO DIABLO
